Please contact us if you need more help with this document.

Description: Your 8(a) application must contain a short business history (1-2 pages is acceptable) that outlines major milestones and changes at your company since its inception and provides the SBA with other basic information about your firm.

Begin with the company start date and provide the SBA with a chronological, sequential summary of all important changes at your company up through the present day.

Also provide the SBA with a brief summary about your company, its ownership, its customers and/or its market, and its primary lines of work, but keep your remarks brief.

Unlike a corporate capabilities statement that is purposefully lengthy and designed to sell, this document is purposefully short and designed to provide the SBA with an easy-to-read, well organized snapshot of your business.
